

2. Remember to pack the essential things without which you can't live, because sometimes you may lose your luggage and it might be delayed.

3. Make two copies of your passport and visa. Keep one copy at your home with your trusted ones and carry one copy with you. In case you lost your passport or stolen, if you show this official information, then you can put a request

to your passport replacement.

4. Are you planning to drive overseas? Then you should have international drivers permit along with your regular driver permit. Before flying, you should check the rules and regulations of the country you are traveling to.

5. Keep all the necessary medications with you. For some countries, you may need to get the vaccinations several days prior your departure.

6. Apart from your debit and credit cards, you should bring cash in the currency of the country you are going to visit. You will find the currency exchange booths in the airport, so can get them at the time of your travel.

7. Electric adapters and plug converters are also necessary. Make sure to check the voltage and plug shapes online prior getting anything.

8. If you are sensitive sleepers, make sure to get your earplugs.

9. Depending on the location you are traveling to, you should take necessary sunscreens and moisturizers. If the location is very hot, you should take a pair of sunglasses. Also take the insect repellent if necessary.

10. When it comes to the clothes, choose color palette so that you can mix and match the things without feeling that you are wearing the same things. Pack solid colors like black, white and red. You can even take scarves for added colors.
