

## Electronics That Every Traveler Should Carry

Growing technology has made each aspect of travel easier as well as more comfortable. So, here are some essential travel gadgets that you can be great help in your vacation.

❑ Camera: Camera is one of those essential travel gadgets for people who want to keep the memories of their journey in high resolution. Also be prepared with your camera that can be used under the water also. You should keep the extra gadgets such as travel tripods, underwater housing and durable cases.

❑ Smart memory card: If you are planning for a long travel vacation, you should take a memory card that has enough space. Taking a smart memory card will help to transfer the photos to laptop or a Smartphone through Wi-Fi.

❑ Flashlight: It is very much useful in emergency situations like during power cut or to locate your luggage in the dark without waking up the hotel roommate. Flashlights can be of low cost that can be easily carried in your hands. It is better to choose a hand eccentric or solar energy without depending on batteries.

❑ Smartphone: Smartphone is not just works as a cell phone, but can also do many other things. With various applications that can be done by Smartphone has made it as one of the essential travel gadgets.

It is a real travel essential even if there isn't connectivity to network while you are flying or on the road. You can have access to several apps and maps

that you can download without any charges. Some applications of your smart phone can work as a GPS, personal translator, culture guide, and even as a camera.

☐ Adapter and Converters: These are also one of the essential travel gadgets. You will find several dual voltage appliances that can work at home or even at abroad. Get an adapter that alters the plug shape to fit well in foreign outlets. You need to get an adapter if you don't have a dual voltage appliance.

☐ Headphones: Get the headphones that are noise reluctant. It is very much useful when you are flying. Whether you are traveling by train or plane, sometimes you might be stuck in small places with loud noise. Be in blissful silence or turn on audio-book or your own music and let the disturbances vanish.

☐ Power strip: Most of the hotel rooms have the facility of only one or two outlets. In case you have many gadgets to charge, you should have power strip. A travel charging case such as iSurge allows you to charge iPhone, ipod, USB case or some other things.

☐ Portable Power: Portable power source, small and rechargeable batteries will help to power up your phones and other electronics while you are traveling.

☐ Electronic Language Translators: Foreign language is no more a hurdle to travel places, electronic language translators are available. As the name suggests, they help in translating foreign language into your own language.

☐ Tablet or E-Reader: If you feel bore and want to read something while you are on the road, you can bring Tablet or E-reader with fully loaded reading material. You don't need to pack books and magazines and make your luggage light.
